## Learn English in Malta

The Island of Malta, in the heart of the Mediterranean, has become synonymous for sun, sea and the English language. Malta was formally a British colony for 164 years gaining independence in 1964 leaving behind English as the lasting legacy.

Malta is one of only a few truly bilingual speaking countries in the world with English and Maltese as the two official languages. Most media in Malta is produced in the two languages and business and judiciary matters are conducted in either Maltese or English.

To this day Malta carries the Cross of King George VI on the national flag. Queen Elizabeth II, who last visited Malta in 2007, held the title of Queen of Malta until 1974 after which Malta became a republic.

Over the past 30 years Malta has become a popular destination for learning English. The standards of teaching in Malta are of a high regard and schools have begun to export their successful business models back to the Britain and as far afield as USA and Canada.

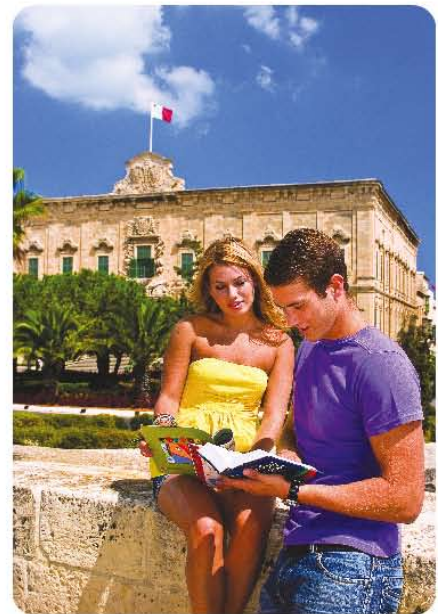

With approximately 350 days of sunshine per year Malta really is an ideal destination to learn English under the sun!

Visit Maltalingua and experience the difference.

## English Language Courses

Our courses are designed to stimulate and motivate students to interact and participate both within and outside of the classroom. Preference is given to both the communicative approach and the lexical approach; this hybrid system is designed to give priority to the communicative use of English in realistic contexts, and be complemented by improving the use of words and phrases.

Different learning styles benefit from a combination of educational activities which balance visual, audio, written and active learning.

Courses are either part-time or full-time and are suitable for adults of all levels. Lessons are taught in small groups, which enables our teachers to use group-teaching dynamics, and at the same time focus on the needs of each student.

The syllabus covers all aspects of improving everyday spoken English and includes listening comprehension, fluency and speaking as well as essential grammar skills, pronunciation and widening the vocabulary range.

As well as being tested and interviewed on arrival we offer free pre-placements tests before your arrive. Student's progress is regularly monitored and levels are adjusted accordingly.
